Junior Front-end Developer

Passionate about front-end development, I transitioned from a teaching background to software development. My strengths lie in creating intuitive user interfaces, problem-solving, and continuous learning. While I specialize in front-end development, I also have foundational knowledge of back-end technologies, making me a well-rounded team player in full-stack projects.

Skills

Frontend	HTML, CSS, JavaScript, TypeScript, React
Backend	Basic Node.js, Authentication, Security
Tools	Git, VS Code, Figma, Vite, Agile
Other	Responsive Design, Accessibility, UX/UI Best Practices

Education

2024 - Present	Frontend Developer, NBI/Handelsakademin , Gothenburg.
2024, Aug.- 2025, Jan.	IT - Back-end Developer, Sundsgårdens Folkhögskola , Rydebäck.
2024, Jan.- 2024, June	IT - Tech for Women, Sundsgårdens Folkhögskola , Rydebäck.
2020 - 2021	IT-Support and Service Desk Technician, Campus Mölndal , Gothenburg.

2015 - 2010	B.S. in Early Childhood Education, Middle East Technical University , Ankara.

Experience

2024 - Present	Preschool Teacher, ABC All About Children Preschool , Gothenburg. <ul style="list-style-type: none">Working in Afternoon Club.
2022 - 2024	Leisure Time Teacher(Fritidslärare), Åkeredsskolan , Gothenburg. <ul style="list-style-type: none">Developed interactive learning activities and designed my own material with digital tools.

Projects

Food Ordering App	Recreated a Figma design by using HTML, CSS and JavaScript. Menu, tenants, receipts are fetched dynamically from an API.
Shopping List App	Created a interactive Shopping List App in which user can add/remove items to the shopping list, by using HTML, CSS, JavaScript and Google Firebase.
Local Travel and Weather Dashboard	A group work in which I created a weather forecast part with real-time data fetching using the OpenWeather API, React, TypeScript, Vite.
Event Manager App	Collaborative project where I developed the Landing Page to dynamically display user-created events. Integrated the frontend with a MongoDB-powered backend using Express.js and Node.js for real-time data retrieval. Built with React, TypeScript, and Vite, ensuring a responsive and visually engaging user experience.

Languages

Turkish - Native
English - Full Professional Proficiency
